School Student's Art Program

The aim of all art teaching at Nolan Art is to develop, through instruction, the unique creative abilities of each student. This is done in small classes through the use of a broad curriculum.

Students are given the opportunity to experience many art and craft mediums, from drawing and painting, to ceramics and mask making. Parallel educational outcomes are:

- Development of cultural understanding.
- Enhanced self-esteem
- Chances to make rewarding friendships.

Other results are enhanced hand eye coordination, the ability to persevere with a task and increased self-reliance.

Smocks getting a wash.

In addition to customary two dimensional art experiences, students are encouraged to further their line drawings into wire sculptures or their portrait painting into sculpted heads.

Pottery classes

We have after school ceramics classes for kids 10 to 16 at our Montagu Bay studio (Betty's house) on Mondays. See site for details.

Dress-ups opening

Each year we have a November exhibition where families and friends can celebrate the student's work.
